

## Through the Lens

**“We must look at the lens through which we see the world and that the lens itself shapes how we interpret it.”**

Perception can be defined as the sensory experience of the world which includes how an individual recognizes and interpret sensory information. Based on the theme of perception, an activity named through the lens was conducted on 8<sup>th</sup> October 2022, for the students of B.Com. (Hons.) under the supervision of the event coordinators Mr. A.K. Pandey, Dr. Shalini Agrawal and Dr Jaya Shahi. Seven teams consisting of 4 members each participated in the activity. A clip consisting of 1 to 4 pictures based on one theme was shown to the participants. Teams were given a minute’s time to analyze and speak about the same.

Through interesting visuals, participants got chance to express their thoughts and develop analytical skills. Each team gave its best and spoke the confidently on the given picture. Their thoughts were judged by Dr. Abha Saxena and Dr. Harsh Chawla on the basis of clarity, thought, confidence, expressions and body postures of the participants.

First prize was awarded to the students of Team D (Aman Tiwari, Kritika Srivastava, Disha Tiwari, Harjot Kaur)

Second prize was given to Team G (Simran Sharma, Lavanya Kesarwani, Abhishek Singh, Muskan Nigam) and

Third prize was awarded to Team E (Kavya Nigam, Mubashra Junaid, Anushka Saxena, Arpit Kumar Bajpayi)

Principal Ma'am Dr. Asmita Dubey enlightened the students about perception. Judges encouraged the participants and congratulated the winners with certificates.
