

ENVIRONMENT POLICY 2021

The environmental policy of college is in-line with the vision and mission of college and aims to minimize the impact of its activities and operations on the environment and sustainably manage available resources. The policy statement highlights how the college will implement best environmental practices and promote sustainable, community-wide resource use on campus and beyond. Presents concepts, defines priority areas and methods for implementing, managing and evaluating the environmental plans. The aim is to reduce energy and raw material consumption, which could endanger sustainable economic development measures at the college level. This policy objectives are clearly defined and shared with the college's staff, students and faculty and help to create a better environment for future authorities.

Jagran College shall pursue the following environmental objectives:

- To protect and conserve ecological systems and resources within the campus.
- To ensure judicious use of environmental resources to meet the needs and aspirations of the present and future generations.
- To integrate environmental concerns into policies, plans and programmes for social development and outreach activities.
- To work with all stakeholders and the local community to raise awareness and seek the adoption of environmentally sustainable practices and the reduction of any adverse effects on the environment.
- To work towards preserving our natural heritage and creating a more sustainable planet by implementing effective conservation strategies.
- To continuously improve the efficient use of all resources, including energy and water, and to reduce consumption and the amount of waste produced, recovering and recycling waste where possible.
- To make the campus plastic free.
- To conduct environmental, green and energy audits from time to time.
- To minimize the use of paper in administration through the policy of E-governance.
