WATER MANAGEMENT

The water management is prime concerning area for any organization, water management policy ensures the optimum and sustainable use of water resource for various purposes. The challenges of climate change and population growth envisage the urgent need of strategic water management policies.

Jagran college is committed to impart quality education and develop a sense of moral responsibility of promotion and propagation of efficient and effective utilization of water resource through the following policy framework:

- Use effective management strategies to conserve water and reduce its use.
- Use of minimum quantity of water possible in accordance with its activities.
- Installing rainwater harvesting system in the campus for ground water replenishment and water self-sufficiency.
- To promote reuse of water from water harvesting and RO in cleaning and gardening.
- To use of water overflow alarms in the tanks to avoid the wastage of water.
- Encourage reporting leaks and swiftly repairing them.
- Appointing a team to take quick action to stop any water leaking from taps, pipelines, tanks, and toilet flushes, among other things.
- To promote efficient water use techniques, such as sprinkler or drip irrigation, in its gardening activities.
- PVC pipe line fittings in place of conventional GI pipe line fittings to avoid rust so the minimize the level of water waste
- Conserve water by use of low flow plumbing fixtures.
- A continuous water conservation monitoring system would be implemented to track use, prevent leakage, and remove excessive or unnecessary use.
- To conduct regular awareness campaigns to understand the importance of water conservation techniques among faculty, staff and students.

This policy is implemented w.e.f. July 1st 2021. It is well communicated through college website i.e. www.jagrancollege.ac.in. to all students, faculty and staff members.
